

Nomad Travel Cases are designed for safety, convenience and simplicity. The use of safe high performance HTIceGel is used as the cooling energy. The thermoformed EVA outer case provides semi-rigid protection for the contents. PE closed cell foam insulation properties and advanced HTIceGel ensure reliable cold life. The top cover is closed using two zip fasteners that draw together two sealing lips minimizing cooling losses. The top cover is fitted with a sealing EVA hinge that is capable of being opened beyond 90 degrees without damage. Elastic webbing loops are used to firmly fix the contents in place to avoid damage.

Weight Empty:	538g
Weight Incl. Gel packs:	1.9g
External Dimensions:	32x23x16cms
Internal Dimensions	14 x 21 x 30 cms
External Surface:	PU leather/EVA+PE (Ethylene Vinyl Acetate)
Internal Surface :	Poly Vinyl Chloride (PVC) + 420 Denier Nylon
Liner:	PVC with two PE boards
Lid type and Seal:	Sealed hinge and zip fastener, with inner lip to reduce cold losses
Insulation (foamed in situ):	PE closed cell foam – 5.0 mm (k=0.076 mW/m-k@0o0c)
Digital Thermometer:	Optional
Temperature Data Recorder:	Optional
Cold Life from Close of Lid to +10oC:	24 Hours at 35C ambient
Detachable Shoulder Strap:	Black Webbing strap
Packing:	Cardboard Carton
Shipping Carton Dimensions:	46x34x64/8pcs
Pieces/Weight per Carton:	TBA

NOTES:

Does not contain Lead, Mercury, Cadmium, Hexavalent Chromium, Polybrominated Biphenyls (PBB), or Polybrominated Biphenyl Ethers (PBBE).

The Thermal Insulation complies with the Montreal Protocol on the Elimination of Ozone Depleting Chemicals.
